In this game, you'll take control of a character with the ability destroy your opponents in order to score a goal and win the match. With a range of unique weapons to choose from, each with their own special abilities, and fast-paced gameplay that requires quick thinking and precision, Dirty Soccer is sure to keep you on the edge of your seat. So, get ready to take your soccer skills to the next level in this exciting and action-packed game.

Durty Soccer

Accomplishments and Achievements

In mvp version 1.0 there are several different things that have been created in this sprint. Some of these include 2 maps have been created. Map 1 being a large mountain range, and map 2 being an island type environment. IN adding to this the basic functionality such as weapon system, goal scoring mechanics, end of match UI, User Player Input Controllers for keyboard and mouse and a few other items have been created. With many more on the way in MVP version 1.5 and so on.

Challenges and Obstacle

- Skill gap
- Storage Issues
- Time Constraint
- Goal to spend \$0
- Plethora of things to learn in unreal
 - Player movement
 - Level Design
 - Gameplay Design
 - UI development

Technologies used to develop

Software:

This game was developed using Unreal Engine 5.0. I chose unreal engine because of the its price (free 99), development mechanics, and UI.

Hardware:

I developed this game on an M1 mac mini. During the development process, I ran out of space, so I bought 1tb of external storage.

What's going to be added in future updates?

- Additional maps and game modes
- Player Customization
- Multiplayer and Smart AI
- Gameplay enhancements
- Available on other platforms such as:
 - Console
 - IOS
 - Android
 - VR
